Welcome From the Chair…

Welcome to the Department of Anthropology at Wayne State University! During the course of your degree program here you’ll be meeting a lot of new people and, hopefully, discovering exciting new ways of looking at the world and developing a career in anthropology. We hope this guide will help to make your task easier. We cannot guarantee that you’ll find in this booklet all the answers to navigating through the degree process at the University, but it is certainly a good place to start!

Anthropology is a field that is changing rapidly to meet the demands of an increasingly diverse and dynamic global community. Today human populations are linked together in a web of technological, social and economic changes as powerful and compelling as any period in human history. Anthropologists study a rich brew of communication and information advances; economic arrangements and disparities; complex medical technologies; challenging food, resource and population problems; and a vast array of ethnic and political struggles both at home and abroad. While these phenomena present fertile ground for scientific inquiry, we, as anthropologists, find ourselves under increasing pressure to make our theories and insights both more accessible to the public and of greater application to the problems that face the world today.

Anthropologists, as social scientists, life scientists, and humanists, bring a unique perspective to these challenges. Our discipline, while complex, focuses on the very heart of most human dilemmas -- the cultural relations within and among communities and organizations both now and in the past. A greater understanding of human cultures and the dissemination of that cultural knowledge and its practical application in the contemporary world are the real challenges for anthropologists today.

A thorough grounding in anthropological theory and method with a strong orientation to anthropology’s practical applications are the basic building blocks for the courses, research programs and other initiatives in Anthropology at Wayne State University. This emerging orientation to both theory and practice should be a welcome sign for graduate students who hope to find training that can prepare them for the type of anthropology that will become commonplace in the 21st century and the kind of employment opportunities that will be available in the coming decade.

Only twenty years ago the vast majority of jobs in anthropology were academic and required, at a minimum, a Ph.D. Students were trained to be university professors and jobs beyond that narrow orientation were few and far between. Today’s employment picture is just the opposite. The majority of jobs in anthropology (and today there are a lot more of them) are outside academia with new applications for anthropological knowledge in business, government, medicine, museums, cultural organizations, non-profits and elsewhere.

Anthropology at Wayne State is now well established within this broadening field of applications that is transforming the discipline. Our medical, business, and applied programs are thriving, and our core programs in archaeology, cultural anthropology, linguistics and biological anthropology are steadily growing. We are now one of the foremost interdisciplinary research Departments within the College of Liberal Arts and Sciences as evidenced by the level of external funding regularly secured by Anthropology faculty and by the range of research projects, publications, international study programs and other activities carried out by our students and faculty.

Please take a few minutes to look through these pages and get an idea of what’s available and ahead in the program for you. You’ll be glad you invested the time.

INTRODUCTION

Anthropologists at Wayne State University study variation in human culture and its complex development over humanity’s great span of time on earth. We use the comparative approach to document and illuminate the differences between and similarities among the societies, communities and organizations that occupy the array of environments and geopolitical contexts found around the globe. Urban, rural, agricultural, industrial, corporate, labor, dominant, minority, elite, disadvantaged, material, spiritual, commonplace and extraordinary are just a few of the dimensions within which Wayne State anthropologists work to refine our understanding of human diversity. In addition, we examine human biology, health, language, kinship, economic organization, politics, ideology and the many other components of culture to understand and, hopefully, improve organization and communication among the cultural groups and organizations with whom we work.

At the core of the Department are the traditional specializations in the four sub-fields of anthropology: archaeology, cultural anthropology, linguistics and physical anthropology. To this core we add an emphasis in practice-oriented anthropology in Business and Organizational Anthropology and Medical Anthropology. Practice-oriented anthropology is often defined as the use of anthropological knowledge in practices generally found outside the academic domain. Our practice-oriented programs account for more than half of our graduate student enrollment and represent some of the most dynamic and growing areas in anthropological research and employment today. Equally important, areas of specialization in the Department include the study of religion and spirituality, urban research, and a host of international research foci, with fieldwork locations in Africa, Asia, Europe, the Middle East, and Latin America. The Department also has a long-standing commitment to museum studies and archaeological research carried out at the Wayne State University’s Museum of Anthropology.

It is important to remember that a blend of anthropological theory and practice characterizes all our individual endeavors within the Department. This disciplinary balance in Anthropology at Wayne State binds together both traditional and emerging anthropological specializations in the way we teach, conduct research and reach out to communities of fellow faculty and students within the University as well as colleagues and constituents in Detroit, across the nation and abroad.

Generating research and employment options for students is clearly a critical part of graduate education. Our dual emphases help increase the number of research, employment and enrichment opportunities available to Anthropology graduate students. Students and professors have opportunities to conduct research at the Museum, which also provides opportunities for employment, Graduate Teaching Assistantships (GTA-ships) and other sources of funding. The Department’s Institute for Information Technology and Culture, in addition to research and employment opportunities for graduate students, hosts a lively open seminar program on a variety of topics and issues of anthropological concern. Wayne State’s Medical Anthropology program collaborates with the Institute of Gerontology and other units at the University to offer research opportunities and employment to many of our students. All our faculty members engage in interdisciplinary research with colleagues and collaborators both on campus and outside of the University to provide a range of opportunities in many allied fields, including a number of international experiences, to students on a regular basis.

While the typical Anthropology graduate student at Wayne State usually combines either full- or part-time employment with graduate study, the bottom line for all involved is a smooth and hopefully problem-free journey through the courses, tests and other requirements that comprise the sometimes challenging steps toward achieving a degree.

This guide represents a kind of “operator’s manual” for successfully securing a graduate degree in anthropology at Wayne. We begin by introducing you to some of the electronic resources, faculty and administrative staff available to students. It is very important that you maximize your understanding of the people and services available to guide you through the program. Please educate yourself about your own responsibilities for obtaining an anthropology degree. Central to your advancement through this program and the degree process are the student-advisor or student-committee relationships. Identify an advisor as early in the process as you can. Avail yourself of the assistance provided by the Graduate Director, Academic Services Officer and the Anthropology administrative staff. Most problems can be avoided by finding out what an acceptable course of action is before making your plans final. Try to allow for enough time to consider alternative options.

This guide outlines admission procedures, specific procedures for MAs and PhDs, and an assortment of Departmental policies and procedures that govern your ability to move toward graduation in a relatively painless and timely manner. Especially important for those of you transferring from MA to PhD status, this guide also contains coursework and grading options and rules. You need to consider these issues when transferring credit from another institution. In addition, the department guide, “Information on Funding Sources,” is included in the packet of application materials and updated each year for the department website. This document describes different potential funding sources for graduate study. The best advice we
can give you at this point is to plan ahead. Take the time now to familiarize yourself with all the issues governing the degree process at the beginning of your studies and avoid time-consuming problems later on. We, as a department, wish you the best of luck in the coming endeavor and look forward to working and learning with you during your time at Wayne State.

FIRST THINGS FIRST

Computer access
The Anthropology Department maintains computer labs for Anthropology student use. The department has a lab in 1154 Old Main that is available to all anthropology students, and a second lab in 3008 FAB that is only for graduate students. In addition, the University provides students with computer access at various Educational Support Labs located in the libraries on campus.

The University provides free e-mail to all students. Students should keep this account active, since the Anthropology Department and other departments (e.g., financial aid) send students important notifications by e-mail. All email communication will be through your university email. If you prefer to use a personal email address, make sure to forward your Wayne mail.

Valuable websites

Students can log in to the Pipeline system with their Wayne State AccessID to register for classes, view their class list, get their transcript, and other functions: http://pipeline.wayne.edu

On the Blackboard system, you can view information about your specific classes, download posted documents, and communicate with other students in the class: http://blackboard.wayne.edu

Anthropology Department Home Page: http://www.clas.wayne.edu/Anthropology/
University Graduate Student Website: http://www.gradschool.Wayne.Edu/Current.html
Schedule of Classes: http://www.classschedule.wayne.edu/course_web/schedule/index.cfm
Graduate Bulletin: http://www.bulletins.wayne.edu/gbk-output/gbk-index.html
American Anthropological Association: http://www.aaanet.org
College of Liberal Arts and Sciences: http://www.clas.wayne.edu

College of Liberal Arts & Sciences

OneCard
The OneCard system allows students access to the library, parking structures and copy machines. All students should obtain a OneCard. The OneCard Office is located in the Welcome Center.

Mailboxes
All graduate students are given a mail folder in the filing cabinet in the Community Room located in room 3040 F/AB. GTAs (Graduate Teaching Assistants) also have mailboxes in the department office.

Bookstores
The Wayne State University Bookstore (Barnes & Noble) is located on the corner of Cass and Warren Avenues. Marwil Bookstore is located across from it. Both bookstores carry new and used books along with supplies.
FACULTY AND SUPPORT STAFF

The entire Anthropology Department works in unison to make your progress toward earning the degree as smooth as possible. The professors you will encounter on a regular basis include the following individuals. We also have many part-time faculty with a diversity of specializations, whose numbers fluctuate from one semester to the next.

In your progress towards the degree, you will deal closely with the following staff and faculty members.

GRADUATE DIRECTOR: The Department Graduate Director is Dr. Stephen Chrisomalis. Dr. Chrisomalis supervises the administration of all departmental graduate degree programs in consultation with the Graduate School, Graduate Committee, Academic Services Officer, and faculty members. It is the Graduate Director who monitors the academic progress of all graduate students, assuring that degree requirements are met. Students are encouraged to see Dr. Chrisomalis if they experience difficulties in their progress through the graduate program, or need additional mentoring.

ACADEMIC SERVICES OFFICER: The Department’s Academic Services Officer is Susan Villerot. She works in conjunction with Dr. Chrisomalis, the Graduate Committee, individual faculty members, and the Graduate School. Your advisor may ask you to see Ms. Villerot for help with initial orientation, guidelines and submission of Plan of Work, equivalency exception paperwork, MA essay / thesis, qualifying exam scheduling, candidacy requirements and completion paperwork, graduation requirements, etc. Ms. Villerot functions to help coordinate student, Graduate School and Department requirements.

ADMINISTRATIVE ASSISTANT: Debra Mazur is the Department Administrative Assistant. She manages the departmental budget and personnel matters.

Meet with your advisor and the Academic Services Officer on a regular basis - at least once a semester.

ADVISOR: Before registering for courses, you should talk to your primary advisor (refer to faculty list). You advisor will help you plan your long-term class requirements so you can plan ahead. In addition, your advisor can help smooth out potential obstacles in your academic path before they become major hurdles.

GRADUATE COMMITTEE: This committee administers and oversees all policy matters relating to graduate student admissions and training. Any exceptions to department and Graduate School requirements must be processed through the Graduate Committee. See your advisor for further information.

APPLICATION AND ADMISSION

Types of Student Status

Regular Admission
Regular Admission means that the student has met the standard departmental requirements and should follow the guidelines set forth in the Graduate Bulletin for the year of his/her admission.

Qualified Admission
The Department can authorize an admission under exceptional circumstances, and a qualified admission may be authorized. You will have additional criteria to meet in order to remain in the program. Those criteria will be stated in your letter of admission. If you have any questions, please see your advisor, the Graduate Officer or the Academic Services Officer.

Permit to register
If you have not been admitted to a graduate program, you may be granted a "Permit to Register" for one semester only. This is a graduate status and credits will appear on your graduate transcript. The Graduate Committee must approve all requests for this status. See the Academic Services Officer for further information.

Applying to the MA Program

Applicants to the MA program must have completed a bachelor’s degree or be in their final semester before completion. The department requires a minimum GPA of 3.2 or higher, but typically admits students with a GPA of 3.5 or higher. Students with a lower GPA may be admitted if the rest of their application file is exceptionally strong. International students from non-English speaking countries must have a TOEFL score of 550 or above for admission.

The deadlines for applications are October 1 to begin during the Winter semester and January 10 to begin in the Fall semester. Contact the Academic Services Officer early in the application process to ask any questions and to make sure you’re on the right track. In addition, you are encouraged to discuss your plans with one or more members of the faculty who specialize in your area of interest as early as possible, to determine if this is the right program for your needs.

The application for the MA Program consists of the following components:

- A completed application form and payment. For new students who have never been accepted into a Wayne State graduate program, the MA application is available online from the Admissions Office website (http://www.gradadmissions.wayne.edu/). Students who have previously had graduate student status at Wayne State do not have to pay the application fee.
- Official transcripts for all undergraduate and graduate coursework.
- A letter of intent. In this 2-3 page statement, you should discuss your academic and professional interests along with your professional goals so that we can ensure that your interests and our expertise overlap.
- Three letters of recommendation. Letters of recommendation from anthropology professors or professors in other fields are ideal.
- A writing sample, such as a research paper for a previous course.

If you have any questions, please contact the Academic Services Officer.

International applicants please see the Graduate Admissions website at http://www.gradadmissions.wayne.edu/intl_students.php for additional requirements.
Applying to the PhD Program

Applicants to the PhD program must have completed a bachelor’s degree in anthropology or a related field, or be in their final semester before completion. Applicants for the PhD are expected to show a theoretical awareness and capacity for conducting independent research well beyond the level expected of MA applicants. Applicants who are intellectually strong but do not have a strong background in anthropology should apply to the MA program rather than to the PhD program. The department requires a minimum GPA of 3.5 or higher. Students with a lower GPA may be admitted if the rest of their application file is exceptionally strong.

The deadline for applications is January 10 to begin in the Fall semester. All applicants must submit GRE scores in order to be considered. International students must have a TOEFL score of 550 or above for admission.

Contact the Academic Services Officer early in the application process to ask any questions and to make sure you’re on the right track. You should also discuss your plans with one or more members of the faculty who specialize in your area of interest as early as possible, to determine if this is the right program for your needs. The application for the PhD Program consists of the following components:

- A completed application form and payment. For new students who have never been accepted into a Wayne State graduate program, the PhD application is available on line from the Admissions Office website (http://www.gradadmissions.wayne.edu/). Students who have previously had graduate student status at Wayne State do not have to pay the application fee.
- Official transcripts for all undergraduate and graduate coursework.
- Graduate Record Examination (GRE) scores, to be reported directly to Wayne State from the Educational Testing Service. The Wayne State University institution code is 1898.
- A letter of intent. In this 2-3 page statement, you should discuss your academic and professional interests along with your professional goals so that we can ensure that your interests and our expertise overlap.
- Three letters of recommendation. Letters from anthropology professors are ideal.
- A writing sample, such as a research paper for a previous course.

International applicants please see the Graduate Admissions website at http://www.gradadmissions.wayne.edu/intl_students.php for additional requirements.

If you have any questions, please contact the Academic Services Officer.

If you are a recent graduate of the WSU Anthropology MA program, you must still formally apply for admission into the PhD program, by completing an online admission application – including all of the above components. Having an approved MA Essay or Thesis is only one of the several factors considered for admission into the PhD program.

ANT2100 Requirement

To be admitted to either the MA or the PhD program, you must have completed Anthropology 2100 (Introduction to Anthropology) or its equivalent at another institution. Qualified admission may be granted while this deficiency is remedied; you must then take ANT 2100 in the first semester in your graduate program, in which case, the instructor must be a full time faculty member. This course is an undergraduate course and thus does not count towards the total number of graduate credits needed for degree.
GENERAL POLICIES AND PROCEDURES
General policies and procedures that apply to all graduate students

If you are a graduate student, there are three sources that govern your graduate career and which you should consult frequently. These are:
- the University Graduate Bulletin (http://www.bulletins.wayne.edu/gbk-output/gbk-index.html)
- this document, the Departmental HORIZONS STUDENT HANDBOOK

It is the University's regulations that are the most general; these are laid out in the Bulletin and on the Graduate School website. The Anthropology Department requirements occasionally require a higher standard than those of the Graduate School. Under these circumstances, Departmental requirements take precedence. Department requirements are laid out in the HORIZONS STUDENT HANDBOOK which will be periodically updated. We ask that you consult both of these sources.

You will also need to access the Graduate School website for current policies, procedures and forms. This website includes samples of the various Graduate School forms that you will need to use. It will also answer many of your questions about such matters as transferring credits, residency requirements, time limits, constituting a committee, the guidelines for the MA and PhD Plan of Work, PhD qualifying exams, candidacy forms, prospectus, preparing the dissertation, and defending the dissertation.

When you were admitted, you were assigned to an advisor on the basis of a match between your interests and the faculty member's expertise. Alternatively, you may have requested a particular advisor. If, over time, your interests have changed focus or are altered, your initial advisor may not be the most appropriate person to serve as your advisor and you should feel free to consult with the Graduate Director, Academic Services Officer, or any other full-time faculty member regarding changing your advisor. It is your responsibility to find another full-time faculty member who is willing to be your permanent advisor. If you cannot do so in a reasonable amount of time, you should not expect to continue in the graduate program. There is a form that needs to be completed to officially change your advisor, please see the Academic Services Officer for the paperwork.

You are certainly encouraged to seek the advice of other faculty as well, and if you are a PhD student, your interactions with other faculty will be helpful in selecting a PhD dissertation committee. If you are an MA student, faculty can help you in selecting your second reader for the Essay or committee members for the Thesis.

Grading

Grades at the graduate level are intended to reflect higher standards of critical and creative scholarship than those applied at the undergraduate level. This standard of excellence entails that work that was adequate in your previous studies may not be adequate in this program.

The university requires all graduate students to maintain a 3.0 overall GPA across all graduate courses. If your overall graduate GPA drops below a 3.0, you will be automatically placed on probation and a hold will be placed on course registration. You will then need to petition the Graduate Committee in writing requesting that the hold be removed. If your GPA remains below a 3.0 for more than one semester, this is cause for removal from the program.

The department also requires a minimum of a B grade in all classes on your Plan of Work. Grades of B- and lower, and grades of WF (Withdraw-Fail) are counted as failing grades for the purpose of evaluating your ability to continue in the program. If
you receive two or more failing grades in courses, or if you fail the same course twice, this is cause for removal from the program.

Repeating Courses

You may repeat only courses in which you received a grade of B- or below. The original grade for the course will remain on your transcript, but only the second repetition of the grade will be used in calculating your GPA. You cannot receive University financial aid for repetition of courses.

The online course registration system only allows one registration per course and will prevent you from registering for the same course a second time. In order to repeat a course, you will need to email the Graduate Director to request an override. You may have a maximum of two overrides throughout your entire graduate program for the purpose of repeating failed courses.

**I - Incomplete** The mark of “I” (Incomplete) is given when a graduate student has not completed all of the course work as planned for the term and when there is, in the judgment of the instructor, a reasonable probability that the student will complete the course successfully without again attending regular class sessions. The student should be passing at the time the grade of “I” is given. A written contract specifying the work to be completed should be signed by the student and instructor. Responsibility for completing all course work rests with the student. The mark of “I” will be changed to a letter grade when the student completes the course work as arranged with the instructor or, if the instructor has left the University, with the Chairperson of the department or other instructional unit. Work must be completed within one calendar year. There will be NO extensions. Any unchanged mark of “I” will automatically be replaced with a grade of “F” after one year.

**Y - Deferred** is given in certain courses, such as essay, thesis, and dissertation, when the work of the course is planned to continue beyond the semester. The Y is changed to a grade at the completion of the work.

**W - Withdrawal** Withdrawals are granted when a student requests a withdrawal and the instructor grants it, in accordance with University policy. Please check the Schedule of Classes for specific dates. These grades are issued as follows:

- WP: Withdrawal with a passing grade earned to date.
- WF: Withdrawal with a failing grade earned to date.
- WN: Withdrawal given to students who did not attend any classes and/or did not complete any assignments and/or did not participate in credit-earning activities by the withdrawal date.

Grades of WP, WF, and WN are not used in calculations of grade point averages, but WF grades do count as a failed course for this purpose of continuation in the program.
Course Equivalencies and Waivers

Some students, due to prior coursework or other experiences, may petition for special consideration with respect to their degree program. This can take two forms: a waiver of a required course, or a course equivalency.

A course equivalency is basically a graduate transfer credit, granted when you have taken graduate-level courses at Wayne State or elsewhere, and want to transfer credit from that program directly to your program here at Wayne.

• You can only request it for graduate courses; the university never, ever allows undergraduate courses to count towards a graduate degree.
• If you are a MA student here but previously earned a master’s degree elsewhere, you can’t get an equivalency for courses from your first master’s. If you just took a couple of courses, then you can be granted equivalencies - just not if the courses counted towards your first master's. If you’re a PhD student here, though, you can get equivalencies for MA courses, where appropriate, regardless of whether you earned the degree. (Talk to the Graduate Coordinator if you need clarification.)
• The course for which you are granted equivalency goes on your Plan of Work. If you already have an existing plan of work, you'll need to change it separately.
• The course counts for credit towards your degree (thus, you need to take fewer credits here).
• You can use a course equivalency for your electives.

A waiver is granted when you have some experience or coursework such that it is judged that you don’t need to fulfill a particular requirement of your program.

• You can request it based on undergrad coursework or other experiences.
• It does not give you course credit towards your degree– instead of the course you were originally required to take, you take a different course here at the 5000 or higher level.
• The waived course doesn’t go on your Plan of Work (but the course you add in its place does).
• It can’t be used for electives (since it doesn’t give you credit, just waives a requirement).

Either way, the procedure is the same: you need to submit a ‘Request for Graduate Course Equivalency or Waiver’ form (http://www.clas.wayne.edu/multimedia/usercontent/File/Anthropology/Course%20Equivalency%20Form.pdf) to the Graduate Coordinator so that it can be reviewed, along with course syllabi or other documentation of your prior courses or experience. Once submitted to the Graduate Coordinator, your request must be signed both by the faculty member most relevant to the applicable course, and by the Graduate Director.

Directed Studies

Directed studies may be authorized provided the area of interest is an integral part of the student's graduate program and is not covered by scheduled courses.

You may request a directed study with any member of the full-time faculty (including faculty in other departments). If the faculty member agrees, you and the faculty member then work out your plans and expectations for the course, using the Directed Study Authorization Form (downloadable from the Graduate School website) as a guide. This form includes a description of the proposed directed study and must be signed by the instructor AND by the Graduate Director and also approved by your advisor. You must submit the Directed Study Authorization Form prior to registration.
Michigan Intercollegiate Graduate Studies (MIGS)

The MIGS program allows graduate students to take courses at other Michigan public universities. MA students are limited to one semester of study and PhD students are limited to two. This program, as well as an exchange program at the University of Windsor, is described in the Graduate Bulletin. Students interested in this program should contact the Office of University Admissions for further information and instructions. Additionally, there is a dual enrollment policy between WSU and the University of Michigan. The requirements are outlined in the ACADEMIC REGULATIONS section of the University Graduate Bulletin.

Program Withdrawal

There is no formal process for taking a short-term leave of absence from either the MA or PhD programs. If you do not register for courses, your time towards the degree continues as usual. You should inform your advisor of your intentions when you do so.

If you do not register for courses for two years (i.e. any four consecutive academic terms, excluding summer) then you will be considered to have withdrawn from the program, and your student file will be made inactive. If, after this time, you wish to resume your studies, you will need to re-apply for admission into the program. The department may, if it chooses to readmit you, require that you retake any or all graduate courses that you had taken before your withdrawal.

Student Code of Conduct

A high standard of student conduct plays a major role in creating an environment of excellence, and the Student Code of Conduct is used to maintain these high standards. The policy 1) establishes the expectations that students are accountable for their behavior; 2) describes acceptable student conduct, both academic and non-academic; 3) describes disciplinary policies and procedures; 4) specifies the rights of students and other parties; 5) specifies prohibited conduct and sanctions to be imposed if such conduct occurs. Examples of prohibited conduct subject to the Student Code of Conduct include, but are not limited to: academic dishonesty, knowingly furnishing false information to the University, disorderly behavior, theft, damage of property, illegal drugs, weapons on campus, false report of emergency, unauthorized entry, violation of criminal law, etc.

The University Student Conduct Officer, housed in the Dean of Students Office, monitors the student disciplinary process and is responsible for coordinating matters involving student discipline; describing the disciplinary procedures; and informing students and other parties of their rights. Copies of the Student Code of Conduct are available from the Dean of Students Office, Room 351 Student Center or from the Offices of the Deans of each School and College. An electronic copy of the code may be found at http://www.doso.wayne.edu/codeofconduct.pdf.
GUIDELINES FOR MA Students

Coursework

The MA degree requires that students complete all required courses at the graduate level. Twenty-four credit hours must be taken in residence at WSU. Twenty-one credit hours must be in departmental anthropology classes. *All courses must be completed with a grade of B or higher; B- and below is not acceptable. Please also see the Graduate Bulletin for additional guidelines. The following courses, or their equivalents, are required for completion of the MA degree:*

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
<th>Notes</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Core</strong></td>
<td></td>
<td></td>

<td>33-34</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If you enter the MA program with a BA from WSU and have completed any of the core classes as an undergraduate (with a grade of B or better) you do not need to repeat them. You must replace them with any other graduate level course that you and your advisor agree will help you achieve your career goals.
If you are intending to apply for the PhD program, you are strongly encouraged to take ANT 7020 (Anthropological Theory II), the second semester of theory, as an elective or seminar. For the student who does not intend to pursue a PhD, this course is also recommended for a comprehensive understanding of anthropological thought today.

Students wishing to specialize their degrees in specific applied subfields may substitute the 9 credit hours of electives above with one of the following course sets:

<table>
<thead>
<tr>
<th>Concentration in Medical Anthropology</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>7420 Anthropology Practicum</td>
<td>3</td>
</tr>
<tr>
<td>5400 Culture, Health, and Illness</td>

**Completing the MA Plan of Work**

By the time you have completed 12 hours of graduate coursework, the University requires you to file a MA Plan of Work (POW). If you do not file a POW, the University will place a hold on your record that will prevent you from registering for classes. When the completed MA POW form is accepted by the Dean’s Office, you move from the status of MA applicant to MA candidate. At the time of preparing your Plan of Work, you, in conjunction with your advisor, will select Plan A, B, or C. If you opt for Plan A or B it is your responsibility to find a faculty member to supervise your project.

To complete the POW, fill in all of the required core courses for the MA program and try to indicate the semester you intend to take the course. Add the number of credits for the Essay (3) or the Thesis (8) in the space provided and total the number of overall credits. List only the credits necessary for fulfilling the minimum degree requirements on the POW, even if you have taken or plan to take more than the minimum requirements.

The completed POW form must be signed by your advisor. Submit the completed form and a current copy of your transcript to the Academic Services Officer. You will receive notification from them once the POW has been approved from the College of Liberal Arts and Sciences Dean’s Office.

If you need to change or add a course to your POW, a Change in Master’s Plan of Work Form needs to be submitted. This form is available at the College of Liberal Arts and Sciences Current Student page. You can use a Change form for two updates. If you need to update your POW a third time, a new POW must be submitted. The Dean’s Office is not as concerned with the
semester a requirement is fulfilled as much as substitution of courses listed, (for example, your POW lists seminar, ANT 7620, but instead you took ANT 7630 – with the approval of your advisor).

MA Graduation Requirements

You may complete a master’s degree by writing a Thesis (Plan A), an Essay (Plan B), or by taking the Synthesis course (Plan C). You formally choose which plan you intend to pursue when you complete your MA plan of work, in conjunction with your advisor. If you decide to change plans, you must submit a new Plan of Work (not a Change of Plan of Work form).

As a general guideline:

- Plan A is best if you have a major research project in mind that involves substantial collection and analysis of original data AND that will take multiple semesters to complete AND that is closely related to your advisor’s research;
- Plan B is best if you have a well-focused research topic of interest, and for which most of the work can be completed in a single semester;
- Plan C is best if your interests cannot be easily conceptualized as a master’s project, if you have no single project, or if your research lies outside your advisor’s direct expertise.

You must file to graduate on Pipeline in the term you expect to graduate. The deadline to file to graduate is normally around the end of the first month of each term. You should notify your advisor as well as the Academic Services Officer of your expected timeline to ensure that you meet all deadlines. We are here to ensure that you know all the deadlines and are able to meet them. If you are unable to complete the requirements in the semester you file to graduate, you will need to reapply for the following semester.

Plan A: MA Thesis (ANT8999)

The Thesis plan requires you to complete the department’s 8 credit hour Thesis Direction course (ANT8999). The thesis is an independent research project taking multiple terms and culminating in an oral defense. When you decide on Plan A along with your supervisor, you should also identify a second committee member from among the full-time faculty. You then complete and submit the Thesis Outline and Record of Approval form. You may then begin to register for your eight ANT8999 credits. You may register for any number of credits in ANT8999 in any term, up to a maximum of eight.

The thesis has no minimum or maximum length, but is normally 50-100 double-spaced pages in length, excluding bibliography and appendices, and is a significant contribution to scholarship in a specific field. MA Theses are governed by the same rules for formatting, binding, and submission as are PhD Dissertations, and so you should ensure that you are in compliance with the current rules set by the Graduate School. You must submit a completed first draft of your MA Thesis to your advisor, in the semester before you intend to defend. Your advisor will suggest revisions at this point. Once the revised draft is completed, you will submit it to both your advisor and your other committee member, and both will suggest revisions. You should submit the revised draft to both committee members a minimum of two months before your expected defense date. Once you have made any additional revisions and have obtained your committee’s approval, you may submit your manuscript to the Graduate School for a format check, which must occur at least two weeks prior to your defense. The Graduate School requires the final manuscript of the thesis, including the signed title page, to be submitted at least three weeks before the end of the term you expect to graduate, so you must schedule your defense before that time.

The oral defense for the MA thesis is open to the public, like a dissertation defense. In the defense, you give a brief (20-minute) oral presentation of your work, followed by questions from your thesis committee and the audience. Oral defenses are not normally scheduled between May 15 and August 15. At the end of the defense, if the thesis is judged to be adequate, both
committee members sign and date the title page of your thesis. Your advisor will assign a grade and inform the Academic Services Officer so that your degree can be certified.

**Plan B: MA Essay (ANT7999)**

The Essay plan requires you to complete the department’s 3 credit hour Essay Direction course (ANT7999). The essay is an independent research project for which the bulk of the writing takes place in a single term. When you decide on Plan B along with your supervisor, you should also think about faculty members who might serve as the second reader for your essay. You must take all 3 credit hours of ANT7999 in one term, which is normally (but not always) the term in which you expect to graduate. While it is possible to conceptualize and complete an MA essay in one term, more often you would conceptualize the project and do readings in one term, and then complete the writing in the next term.

The MA essay has no minimum or maximum length but is normally 30-60 double-spaced pages in length, excluding bibliography and appendices, and demonstrates scholarly excellence. The College of Liberal Arts and Sciences sets the regulations and formatting requirements concerning MA essays, which can be found at [http://clasweb.clas.wayne.edu/Multimedia/CLAS/files/Students/Essay_Guidelines.pdf](http://clasweb.clas.wayne.edu/Multimedia/CLAS/files/Students/Essay_Guidelines.pdf). The two key dates you need to know are the deadline to apply to graduate, normally around the end of the first month of term, and the deadline to submit your essay to the College, including all revisions and with your two readers’ signatures on the cover page, normally around a month before the end of term.

You must submit a first draft of your MA Essay to your advisor three months before you expect to graduate. Do not apply to graduate until you have a full draft in your advisor’s hands. After your advisor suggests revisions, you make changes and then submit a second draft to both your advisor and your second reader. This should be a minimum of six weeks prior to your expected graduation to give time for both readers to analyze your work and suggest changes. When both readers agree that your essay is adequate, they sign the title page, and then you submit a copy of the essay, bound to the requirements of the College. Your advisor gives the essay a grade, and informs the Academic Services Officer so that your degree can be certified.

**Plan C: Coursework (ANT7900)**

The Coursework plan requires you to complete the department’s 3 credit hour Synthesis course (ANT7900), which is offered each Winter term. This is a rigorous theoretical and analytical course in which you demonstrate mastery of anthropological theory and methods across the different subfields and in your specific area of expertise. This course is also open to graduate students not in Plan C, and counts towards any graduate degree.

You must have completed at least 21 credit hours in the program prior to taking ANT7900, including ANT7005 and ANT7010 (7010 may be taken concurrently). It is thus probable, though not necessary, that you will graduate in the term in which you take ANT7900. You must still file to graduate in accordance with the deadline set for that term, but there are no additional requirements beyond the successful completion of ANT7900 with a grade of B or higher.
GUIDELINES FOR PhD STUDENTS

Overview of the PhD program

The PhD program is a much more individualized program of study than the MA program. You will make most of the decisions regarding your training and study together with your advisor (committee chair) as well as other members of your PhD committee. The Graduate Director, Graduate Committee, and the Academic Services Officer are also involved in tracking and overseeing graduate student progress through the PhD program.

Progress through the PhD program involves the following steps, in this approximate order:

- Starting coursework
- Submitting a PhD Plan of Work
- Completing non-dissertation PhD coursework, including the foreign language requirement
- Assembling a committee
- Completing qualifying exams
- Submitting a PhD prospectus and obtaining HIC approval for research
- Taking dissertation credits
- Completing doctoral research
- Writing the dissertation
- Defending the dissertation
- Submitting the final manuscript

In addition, you will be asked to complete an Annual Summary of Student Progress report each year.

The Graduate School website includes information for PhD students that you should consult in addition to this document (http://www.gradschool.wayne.edu/Current/phd.asp).

Your Advisor

At the time of admission, you are assigned a faculty advisor based on a match between your interests and the advisor's expertise. You will work closely with this advisor, not only to plan out PhD coursework, but also to assemble your committee, design your doctoral project, prepare for qualifying exams, apply for funding, and write your dissertation. Maintaining a good working relationship with your advisor is essential to your success in the PhD program.

If your interests change focus over time, or you feel you no longer have a productive relationship with your advisor, you may change advisors. It is your responsibility to find another full-time faculty member who is willing to be your permanent advisor. If you cannot do so in a reasonable amount of time, you should not expect to continue in the PhD program. Feel free to consult with the Graduate Director, Academic Services Officer, or any other full-time faculty member regarding changing your advisor. Please let the Academic Services Officer know of any proposed change so that the appropriate paperwork can be completed.

Annual Summary of Student Progress

Each year the University Graduate School requires that all PhD students fill out a document known as the Annual Summary of Student Progress. This document is designed to aid the student, the advisor, the department, and the Graduate School in effectively tracking individual PhD student progress and achievement. The progress form is available on the Anthropology website before the beginning of the fall semester each year, and is normally due at the end of October. The document is to be completed in a meeting between the student and his or her advisor, who then comments on and signs the form. Return the completed form to the Academic Services Officer for review by the Graduate Director. Failure to return this document by the
stated deadline will result in a hold being placed on your record. Students who do not complete the Annual Progress Report will also not be eligible for departmental funding.

In the winter term, the faculty will conduct an annual review of PhD student progress to ensure that students are making timely progress and that there are no concerns. Students who have not completed their Annual Summary of Student Progress may be required to meet with the Graduate Committee in order to ensure that accurate information is received before the hold is removed from their record. In late March, you will receive a letter from the Graduate Director discussing your progress over the previous year. A copy of this letter will be placed in your student file in the department.

**PhD Coursework**

The PhD requires 90 credits beyond the BA with a grade of B or better, of which at least 30 must be taken in residence at WSU.

The following courses, or their equivalents, must be completed for the PhD. *These courses must be completed with a grade of B or better; B- and below is not acceptable.*

- (Anthropology 2100) Intro to Anthropology - if not already completed
- Anthropology 5140 Biology and Culture
- Anthropology 7005 Thinking and Writing Anthropology
- Anthropology 5210 Methods
- Anthropology 5270 Archaeological Theory & Techniques
- Anthropology 5320 Language and Societies
- Anthropology 7010 Anthropological Theory I
- Anthropology 7020 Anthropological Theory II
- Anthropology 7200 Qualitative Research I
- Anthropology 7210 Qualitative Research II
- Anthropology 7780 Conceptualizing the Dissertation
- At least 3 7000+ level seminars.
- Dissertation credits 9991-9994, taken in consecutive semesters immediately after advancing to candidacy

If you complete these courses as a MA student, they will count towards your PhD degree.

In addition, you must complete:

- The foreign language requirement, if not already completed (see below)
- Eight cognate credits in a single department outside of Anthropology
- At least 30 total 7000+ level credits. (Not including dissertation credits)

Doctoral students in archaeology should petition the Graduate Committee for equivalency for ANT7200 and ANT7210, in order to substitute 8 credit hours of graduate-level archaeological field or lab methods courses (see above, *Course Equivalency and Waivers*).

**Foreign Language Requirement**

Competency in at least one language other than English is essential for doctoral students. Even if you are planning fieldwork in an English-language setting, much academic literature is written in languages other than English. Also, proficiency in additional languages will permit you to conceptualize post-dissertation projects in other settings.

The department requires all PhD students to have completed three semesters of the same foreign language at the college level before taking qualifying exams. You may have already satisfied this requirement in previous coursework (e.g., during your
undergraduate study). If not, it is advisable to complete the requirement early on during your time at Wayne so that you can potentially use your language expertise and so that you are not burdened with time-consuming language classes later in your program. Please note that foreign language classes, because they are undergraduate credits, do not count towards the 90 credit total for the PhD. Courses taken at other institutions including community college do fulfill this requirement.

If you have gained proficiency in a foreign language outside of the classroom, you can take a placement exam or pass a translation test approved by an appropriate department at Wayne State (e.g., Classical and Modern Languages, Literatures and Cultures). If your exam results demonstrate competency at the three-semester level, you have completed the requirement. Once your examiner confirms your result with the Academic Services Officer, your status will be updated and recorded in your file.

Students planning a dissertation project in a site requiring a fieldwork language other than English may be required by their committee to demonstrate field language proficiency above and beyond the university’s language course requirements. The committee may require the completion of a written or oral test in that language.

Students with a degree from an institution where English is not the primary language of instruction are exempt from this requirement.

**PhD Plan of Work**

The PhD POW must be submitted by the completion of 40 graduate credits. For students with a WSU master’s degree, this includes any MA credits that will be counted towards the Ph.D. The Plan of Work, downloadable at [http://www.gradschool.wayne.edu/Current/onlineforms.asp](http://www.gradschool.wayne.edu/Current/onlineforms.asp), lists the courses you have taken and the courses you plan to take. This document must be approved by the Graduate School before you can advance to candidacy, and it is a requirement for certain funding awards. Use the required coursework listed above under “PhD Coursework” as a guide for filling out your POW, and make sure you are in compliance with all additional requirements. Consult the Academic Services Officer to make sure you have filled it out properly; then submit your complete POW with your advisor's signature to the Academic Services Officer.

Changes and additions to your PhD POW must be approved and signed by your advisor. A Change in PhD Plan of Work form [http://www.gradschool.wayne.edu/forms/Change%20in%20Plan%20of%20Work%20Form.pdf](http://www.gradschool.wayne.edu/forms/Change%20in%20Plan%20of%20Work%20Form.pdf) may be used to make up to 4 changes in the POW. Turn the signed form in to the Academic Services Officer. If you wish to make more than 4 changes, please submit a revised Plan of Work instead.

**PhD Committee**

In the final semester when you are finishing your coursework, you must form a dissertation committee and convene a meeting to create a timeline and set expectations for your qualifying exam and prospectus. Your committee chair is your primary faculty advisor and must be a full-time faculty member in the department. The PhD committee consists minimally of two members in the department (including the committee chair); a third member either inside or outside the department; and a fourth external faculty member outside the department, and generally outside the discipline of anthropology. The first three members supervise the qualifying exam.

Refer to the document "Changes in the Dissertation Committee Composition" (at [http://www.gradschool.wayne.edu/GradFaculty/DissCommChanges.pdf](http://www.gradschool.wayne.edu/GradFaculty/DissCommChanges.pdf)) for further details on the composition of the PhD committee.

If you wish to change your committee composition after successful completion of the qualifying exam, please contact the Academic Services Officer for the necessary steps.
Advancing to Candidacy

Once you have formed a committee and completed your coursework, there are several crucial steps to take. **You must advance to candidacy within one year (12 months) of the completion of your coursework.** Exceptions to this rule must be approved by the Graduate Committee. Note that qualifying exams and oral prospectus meetings will not be scheduled between May 15 and August 15. Between finishing your coursework and advancing to candidacy, you may take up to 10 credit hours of ANT9990 Pre-Doctoral Candidacy Research credits.

In order to move to Ph.D Candidate status, the following steps are required, normally in this order:

- Approval of the Plan of Work
- Establishment of, and initial meeting with, the dissertation committee
- Completion of all coursework as set forth in the Plan of Work, including the foreign language requirement
- Satisfactory completion of the written Qualifying Examination
- Completion of the Oral Prospectus Meeting
- Submission of a *Doctoral Dissertation Outline and Record of Approval* form with completed dissertation prospectus and HIC approval
- Submission of a *Recommendation for Doctor of Philosophy Candidacy Status* form

Students who began the PhD program before fall 2010 have the option of using the qualifying exam and candidacy system that existed when they were first admitted to the program.

**Qualifying Examination**

After you have completed all PhD coursework, including the language requirement, you may complete the PhD Qualifying Examination. In this exam, you demonstrate in-depth competence in three areas of specialization relating to your dissertation topic, including mastery of a broad range of theoretical materials and an ability to think and write analytically.

It is a take-home exam consisting of four essay questions: one in each area of specialization, designed by one of your first three committee members, and the fourth, common to all students, asking you to synthesize and apply the material from the first three exam questions to your dissertation topic.

In conjunction with each committee member, you will develop an appropriate reading list and the question to be asked on the exam. Final discretion for the reading list and the wording of the questions lies with your committee members. Each of your four answers should be roughly ten double-spaced pages (2500-3000 words) in length and should cite relevant literature in the area.

This exam must be completed, working independently, within one seven-day week from the time it is received and submitted to the Academic Services Officer, who will distribute the entire exam to your committee members. Your committee will read and evaluate the exam. Answers will be assessed on the quality of critical analysis and mastery of the relevant literature.

If the exam is found to be satisfactory, you will receive written confirmation from the Academic Services Officer and may proceed to complete your prospectus. If it is found to be unsatisfactory, you may be asked to rewrite any or all of the answers and resubmit the exam. If it is found to be unsatisfactory a second time, you may not continue in the program. Qualifying exam questions or answers will be kept on file electronically in the department and added to your student file.

There is no longer an oral qualifying exam (see below, regarding the oral prospectus meeting).
**Prospectus and HIC approval**

Your dissertation prospectus outlines the scope, theoretical framework, significance, and methodology of your proposed dissertation research. You complete the “Doctoral Dissertation Outline and Record of Approval” form (See the Academic Services Officer). You must also have completed the HIC human subjects approval process, including a completed Medical/Behavioral Protocol Summary Form, and have received HIC approval for your project, before your prospectus can be submitted.

Prior to advancing to candidacy, you must then orally defend your dissertation prospectus in an oral prospectus meeting. This is normally a brief (15-20 minute) public presentation of material from your prospectus, followed by questions from the audience. After the public presentation, your four committee members meet with you, ask further questions, and, if necessary, request changes.

**Candidacy**

At the conclusion of a successful oral prospectus meeting, all four of your committee members will sign both your “Doctoral Dissertation Outline and Record of Approval” form, as well as the “Recommendation for Doctor of Philosophy Candidacy Status” form. These forms are sent to the Graduate School and confirm your Candidacy status. Once you have reached Candidacy status, you can begin to take dissertation credits in the sequence ANT9991-9994.

**Conflict of Interest**

When you submit your Prospectus for approval, and again just prior to your dissertation defense, you must also submit a Conflict of Interest form, signed by all committee members and yourself, disclosing any financial or personal conflicts of interest, or affirming that there are no such conflicts (http://gradschool.wayne.edu/phd-info/conflict_of_interest_form.pdf). Your prospectus cannot be approved, and you cannot defend your dissertation, without this signed form.

**Dissertation Credits**

Dissertation credits are 9991 - 9994. ANT9990 credits are Pre-Doctoral Candidacy Research credits and do not count toward the total 30 dissertation credits required for the PhD degree; in addition, no more than 10 credits of 9990 may be taken. Dissertation credits that will count toward the PhD degree cannot be taken until you have attained candidacy. Once you have attained candidacy, you must register in the following semester for 9991 and complete the 9991-4 sequence over consecutive semesters (registration in spring/summer is optional). If four semesters of candidacy status are completed before graduating, students may register for candidacy maintenance (9995) to maintain access to university resources. They must be enrolled (e.g., in 9995) the semester they defend their dissertation and graduate. Please contact the PhD office of the Graduate School for registration for dissertation credits by sending an email to phdstudents@wayne.edu to request a registration override.

For more information, refer to the “Ph. D. Candidate Status Registration and Tuition Summary,” downloadable at http://www.gradschool.wayne.edu/Current/Phd/PhdCandidateStatus.pdf.

**Time Extension**

The time limit for the PhD program is 7 years from the end of your first semester as a PhD student (i.e., if you start the program in September 2010, your time expires at the end of December 2017). If you are going to exceed this limit, you must submit a request for a time extension to the Graduate Committee, which if approved will be forwarded for approval by the Graduate School. Failure to demonstrate timely progress in fulfilling program requirements is grounds for removal from the program. The Graduate School does not automatically grant extension requests and you need to provide justification for your request as well.
as a feasible plan for completing the degree. At the beginning of semester when your time expires, you should meet with your advisor to initiate the extension. The request must consist of the following six items:

- A completed Time Extension Request form (http://www.gradschool.wayne.edu/forms/Time%20Extension%20Form.pdf)
- Your CV
- Your most recent Annual Progress Report
- A detailed timeline showing your plan for completing the degree
- Any documentation relevant to any special circumstances justifying your extension request
- A detailed letter of support from your advisor

If you are granted a time extension, and then you exceed 10 years from the end of your first semester, you will be required by the Graduate School to revalidate your qualifying exams. You, in conjunction with your advisor, will make a plan on how you will revalidate your exams.

The Defense Year

In the first month of the semester BEFORE you plan to defend your dissertation – at the beginning of your defense year – you should convene a meeting of all your committee members (locally or by Skype), in which you:

a) discuss the scope and plan of the final writing stages of your dissertation;

b) outline the roles of various committee members in evaluating portions of the dissertation;

c) set expectations for communication with and among the dissertation committee members;

d) address potential outstanding problems in writing, analysis, and methodology;

e) set a potential defense date.

You must submit a complete dissertation draft to your advisor no later than six months before you plan to defend, although you are expected to send draft chapters individually to your advisor throughout the writing process. Depending on the composition of your committee and your dissertation’s structure, it may also be important to submit individual chapters to specific committee members other than the advisor.

You must submit a complete dissertation draft to all your committee members no later than two months prior to your planned defense (preferably earlier). You must have your advisor’s approval for the entire draft dissertation before doing so. Please note that the latest you can defend a dissertation is normally in November for December graduations and in March for May graduations. You can defend after that point, but you will not graduate until the next term.

Defending the Dissertation

The doctoral dissertation is a piece of substantial, independent, and original field or laboratory research. While there is no minimum or maximum length set by the university, most successful dissertations in anthropology are over 200 double-spaced pages in length (excluding bibliography and appendices) and reflect multiple years of sustained work. The process of completing and defending a work of this scope is extensive and you should budget at least a year if not more to complete it. A dissertation defense is a confirmation of the excellence of your scholarship, an opportunity to publicly present your work to your colleagues and to the community, and an endpoint in a long process.

There are numerous important procedures set by the Graduate School relating to defending your PhD (see http://gradschool.wayne.edu/phd-info/deadlines.php), which vary from term to term. Notify the Academic Services Officer well in advance of your intention to complete the degree requirements and before proceeding with the degree application process.
You must apply to graduate by the deadline to file degree applications. This is the same as the deadline for MA students, normally at the end of the first month of the term. You should file only if you expect to complete all degree requirements including submission of the final manuscript in the current term.

A minimum of two weeks before you plan to defend, you must complete the following steps:

- You must submit your dissertation manuscript electronically for a Format Check;
- You must submit the Conflict of Interest form to the Graduate School disclosing any conflicts or affirming that there are none, signed by all committee members. You must resubmit the form even if you previously submitted it when you submitted your prospectus.
- You must submit an electronic copy of your entire dissertation to the departmental Graduate Director for a check using the Safe Assign plagiarism detection software.
- You must submit the first portion of the Final Defense Report form to the Graduate School, signed by all committee members. This form is then returned to the department to be completed at the defense.
- After consulting with the Academic Services Officer to book a room at the appropriate time, you submit a copy of the public announcement of your defense to the Graduate School (which will also be distributed electronically to students and faculty).

You can schedule your defense at any point between August 15 and May 15; however, there is a deadline, usually around two months before the end of each term, after which you can still defend your dissertation but will not graduate in that term. In other words, you can defend in December but then the earliest you can actually receive your PhD is the following May.

The first part of the Final Defense is a public presentation in which the candidate presents the methodology, research and results of the investigation to the committee and the audience, and responds to their questions. In the second part, the candidate meets with the committee and responds to further questions about the research and dissertation. The final phase is the evaluation, in which the committee discusses the candidate’s performance, agrees on any revisions the candidate should make to the manuscript, and determines whether or not s/he passed. The committee’s decision is conveyed to the Graduate School via the Final Defense Report form. The candidate is informed of any required revisions.

**After the Defense**

It is normal for minor revisions to be required following a successful defense, ranging from correcting typos to adding additional analysis. The scope of these revisions will be communicated to you by your committee following the defense.

If you intend to graduate in the term in which you defend, there is a deadline set by the Graduate School, normally about six weeks before the end of term, for all materials to be received and forms completed relating to the final manuscript. If you defend later in the term, it is likely that you will not complete your revisions before the Graduate School’s deadline to receive your degree, and will actually graduate in the following term.

When you submit your final, revised manuscript, you must complete several additional steps. See the Graduate School website for more specific information.

- You upload the final manuscript to the Proquest/UMI site;
- You submit an original signed title page to the Graduate School;
- You complete and submit the Survey of Earned Doctorates;
- You complete the Dissertation Title and List of Previous Degrees form online;
- You submit the permission form to have your dissertation archived with WSU Libraries.
FELLOWSHIPS AND FINANCIAL AID

The Anthropology Department administers its own internal funding competition each winter. Application forms for these awards are normally distributed electronically in the late fall, and the deadline is normally in mid-January. Doctoral students who have not completed the most recent year’s annual progress report are not eligible to be considered for these sources of funding. The following awards are available:

- One or (rarely more) Rumble Fellowships, covering tuition, stipend, and benefits, with no teaching or service obligations; (PhD students only)
- Several Graduate Teaching Assistantships, covering tuition, stipend, and benefits, with teaching obligations in the fall and winter semesters; (PhD students only)
- One Graduate Teaching Assistantship dedicated specifically to work in the Grosscup Museum, and including tuition, stipend, and benefits (MA or PhD students)
- One or more Barbara Aswad award(s) for graduate travel, directed ordinarily to students pursuing field research in the Middle East. (MA or PhD students)

At the time of starting a GTAship, GTAs must have completed an MA in anthropology from any institution, or a minimum of 18 credit hours of WSU anthropology doctoral coursework across at least two anthropological subfields. At the time of starting a GTA/GRAship at the Grosscup Museum of Anthropology, GRAs must be MA or PhD students in good standing in the program. At the time of starting a Rumble Fellowship, fellows must be PhD students in anthropology who meet the minimum requirements for the Rumble fellowship category they are receiving (following Graduate School policies).

All of these awards, except the Aswad award, require that the recipients do not hold any other concurrent employment. A student may hold a GTAship for a maximum of three years throughout their doctoral studies. Students who do not receive funding but whose funding applications were complete may be placed on a ranked list of alternates in the event that award recipients decline them.

Another major funding source is the Graduate Professional Scholarship competition, which covers up to ten in-state credit hours of courses in each of the fall and winter semesters for one year. This is a university-wide competition open to both MA and PhD students, with a March application deadline for the following academic year.

In some instances other sources of funding may be available; e.g., research assistantships on a faculty member’s grant, or instructional assistantships to aid in grading. These are available on an ad hoc basis. It is important to keep in close contact with your advisor as you are pursuing these opportunities.

The department strongly encourages all students, but especially doctoral students, to pursue external funding opportunities (NSF, NIH, SSRC, Wenner-Gren, Blue Cross Blue Shield, etc.). In order to maximize your opportunities, talk to your advisor or to the Graduate Director.

Anthropology Professional Development Award

Each year the department makes available funds to both MA and PhD students for travel to professional meetings where they are presenting papers. In order to request travel funds, you must contact your faculty advisor, and have him/her send an email to the Chair of the department, requesting funding in writing and providing evidence (i.e. a conference program or acceptance letter) that you will be presenting at the conference. The total amount available for student travel each year varies. A student may receive only one travel award per year. Matching funding from the Graduate School, in the amount equal to the amount provided by the department, is occasionally available. Doctoral students who receive this award must submit an application for the next year’s Graduate Exhibition poster competition in order to be eligible for departmental funding (GTA/GRAs/Aswad) in the subsequent academic year.
FORMS

All forms that are required throughout your graduate studies are online. You can either find them on the Anthropology website www.clas.wayne.edu/Anthropology or The Graduate School website www.gradschool.wayne.edu or the College of Liberal Arts and Sciences website www.clas.wayne.edu Here are the links to a few of the most common forms.

MA Plan of Work – http://www.clas.wayne.edu/graduate_student_files/Plan%20of%20Work.pdf
Change to the MA Plan of Work – http://www.clas.wayne.edu/graduate_student_files/change_in_plan_of_work.pdf

PHD Plan of Work – http://www.gradschool.wayne.edu/forms/Plan%20of%20Work.pdf
PHD Change to the Plan of Work – http://www.gradschool.wayne.edu/forms/Change%20in%20Plan%20of%20Work%20Form.pdf

Directed Study Form – http://www.gradschool.wayne.edu/forms/directedStudy.pdf

Petition to Repeat a Course - http://www.gradschool.wayne.edu/forms/RepeatCourse.pdf

Time Extension for PHD students - http://www.gradschool.wayne.edu/forms/Time%20Extension%20Form.pdf

REQUEST FOR EQUIVALENCY

Complete and submit to Susan Villerot, Academic Services Officer, Anthropology Department, WSU

Definition
An equivalency is when previous coursework, at Wayne State or elsewhere, is deemed to be equivalent to coursework required by the student’s program.

<table>
<thead>
<tr>
<th>Student</th>
<th>e-mail address</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mailing address</td>
<td>Phone number</td>
</tr>
<tr>
<td>Program</td>
<td>Advisor</td>
</tr>
</tbody>
</table>

- Please describe what equivalency or equivalencies you are requesting and why. Attach additional pages as necessary.

- Please attach, at a minimum, course syllabus or syllabi, reading list or lists, exams and/or papers. Feel free to attach any other information you think relevant.

Responsible faculty comments

I accept/reject (circle one) the request for equivalence
