Mission Statement -- BPA
Providing Department: Bachelor of Public Affairs

Mission Statement
The Bachelor of Public Affairs (B.P.A.) prepares qualified students for professional and technical careers in the public service or for advanced study in public affairs and administration, the social sciences and related disciplines. The program is a structured professional curriculum that builds on the foundation of a general liberal arts education. The curriculum incorporates fundamentals of social science theory and applications of that theory to public management and policy analysis. The B.P.A. provides students with skills needed for working in city, county, state and national government, in other public and non-profit agencies, and in positions in private enterprise that deal with governmental relations.
