T=currently offered every Fall and Winter term  
Y=currently offered once a year  
PRE=Prerequisite/Remedial Course  
MA=Masters-level Required Course

**Sample Plan for Masters Students (For Those with Full-time Status)**

**Year One**:

**Fall**:
(1) SOC 5010 (remedial statistics) or SOC 6050  
(2) SOC 7200

**Winter**:
(1) SOC 5010 (remedial theory) or SOC 6280  
(2) SOC 6060 (if on Thesis track) or one elective course (if on Masters Essay track)

**Year Two**:

**Fall**:
(1) SOC 6050 or 7200 (if not already taken; if both SOC 6050 and 7200 are complete, then enroll in 4 thesis credits  
(if on Thesis track) or an elective course (if on Essay track)  
(2) one elective course (either track)

**Winter**:
(1) SOC 6280 or 6060, if not already taken; if both SOC 6280 and 6060 are complete, then enroll in 4 thesis credits  
(if on Thesis track) or 3 essay credits (if on Essay track)  
(2) SOC 7030 and any remaining credits to complete at total of at least 32 credits at the Masters level

**Year Three**:

Finish your Masters Thesis or Masters Essay if it is not completed already. Remember that you must be registered for credits during the semester that you defend.

*All Prerequisite courses must be completed FIRST* (e.g., SOC 5010 courses in statistics or theory). All prerequisite courses should be completed within one year’s time, if Masters students wish to be considered in “good academic standing” in our program. **All students entering the Masters program are on a 6-year time-clock, and time extensions on these clocks are very difficult to get. While there is some flexibility in the number of courses you take per year, Masters students typically finish their degrees in 2-4 years, depending on whether they are in school “part-time or “full-time.” Masters students making “good progress” finish all required Masters coursework within 2-3 years. Optimally, students should be working on their Masters Essays or Theses by the middle of Year 2 if they are in school full-time. Students should be working on their Masters Essays or Theses by the middle of Year 3 if they are in school part-time. Full-time Masters students should be completing their Masters Essays or Theses by the end of Year 2. Part-time Masters students should be completing their Masters Essays or Theses by the end of Year 4 at the latest. Students who are taking courses part-time (one course per semester) should remember that their time clock is no different; part-time Masters students still only have 6 years to finish their degree.
