Rising Scholars Program

The Department of Mathematics is now offering special sections of MAT 0993, run by its highly acclaimed and very successful Emerging Scholars Program (ESP). These special sections comprise a program called the Rising Scholars Program (RSP). The purpose of these unique sections is to support students who are determined to excel in college and are willing to do the hard work necessary to do so.

**Description:** The RSP sections of MAT 0993 are taught by ESP instructors in a combined lecture-workshop format. The classes meet four days per week in a standard classroom setting and two days per week in a workshop where the students work in groups to solve challenging problems.

**Schedule/Instructors:** The RSP sections of MAT 0993 meet for a total of seven hours per week. Class times can be found at [www.classschedule.wayne.edu](http://www.classschedule.wayne.edu).

**Expectations:** It’s expected that the students in the RSP sections of MAT 0993 will be committed to excellence, willing to work hard and supportive of each other’s educational goals and dreams. Accordingly, the following standards are held:

- Students are expected to attend each and every class and workshop fully and on time.
- No student is admitted into any class or workshop late.
- Students are expected to submit all homework assignments in a satisfactory and timely manner.

Meeting these expectations is a requirement for remaining in the Rising Scholars Program. The program reserves the right to fail or dismiss any student not meeting these expectations.

**To Register:** Students can only gain entry to an RSP section of MAT 0993 by completing an application, going through an interview, and then being accepted. To apply, see Ellyshia Walker, RSP Student Support Coordinator, in 1316 F/AB. For more information, contact Ellyshia Walker at (313) 577-1887 or al4204@wayne.edu.
Rising Scholars Program Application

1. Name: _____________________________________ 2. WSU Banner ID #:______________________
3. Address: ________________________________ City: ______________ State: ____ Zip: _________
4. Phone #1:________________________________ Phone #2:__________________________________
